### First Things

The first practical type-setting machine, the linotype, was patented in its essential principles twenty-three years ago today, April 8, 1890. Since then other machines of this character, notably the monotype and the intertype, have been placed on the market, and have proven highly satisfactory; but to the Mergenthaler linotype belongs a large part of the credit for revolutionizing the printing and newspaper industries. The first attempt at a type-setting machine was patented in England in 1794. Church a Connecticut inventor, invented the keyboard principle in 1822. A score of machines were patented on both sides of the Atlantic between 1840 and 1860, and the Alden, an English machine, was used to some extent on book work. All of these appliances failed in one essential particular—they did not provide for the automatic justification of the lines. Otto Mergenthaler of Baltimore, solved this difficulty, as did Lanston, the inventor of the monotype, but the Mergenthaler machine was first in the field, and is now used in newspaper offices all over the world, and by many job printers. The total number of type-setting machines of all kinds now in use is probably more than fifty thousand.

### RHEUMA

DRIVES OUT

## RHEUMATISM

After 25 Years of Misery, This Man Walks, Works and Feels Fine Again.

Right away—the first day you start to take RHEUMA—the Euc Acid poison begins to dissolve and leave the sore joints and muscles. Its action is little less than magical. RHEUMA works so speedily you actually can feel the Rheumatism leaving the body. A bottle costs but 50 cents and if you are not satisfied Evans' Drug Store will return your money. Read this:

"I wish to state to you the facts and nothing but the facts. I bless the day a friend brought me a 50-cent bottle of RHEUMA. I used one-half of it and it did me more good than all the other medicines I ever tried. I had been afflicted with Rheumatism all over my body for more than 25 years; I could not walk, and was a broken down man. During that time I spent a small fortune trying to be rid of the horrible disease, but without help. However, RHEUMA reached my case, and I thank God I can again use my feet and do my work."

"Before taking your medicine I was staying with a daughter on her farm, and despite her loving efforts to tempt my appetite I could not eat. After I had taken RHEUMA two days my appetite returned. Yours for prosperity."—Prof. H. H. Kolling, 7 S. Ninth St., Richmond, Ind., Oct. 10, 1912.

**Pains in the Stomach**  
If you continually complain of pain in the stomach, your liver or your kidneys are out of order. Neglect may lead to dropsy, kidney trouble, diabetes or Bright's disease. Thousands recommend Electric Bitters as the very best stomach and kidney medicine made. H. T. Alston, of Raleigh, N. C., who suffered with pain in the stomach and back, writes: "My kidneys were deranged and my liver did not work right. I suffered much, but Electric Bitters was recommended and I improved from the first dose. I now feel like a new man." It will improve you, too. Only 50c and \$1.00 Recommended by F. D. Hall.

### PROFESSOR SIMP.

This is the 234th anniversary of the birth of Shallow Snicks, the man who originated the custom now more or less in vogue among the men of rising to give the ladies their seats in trolley cars. It is said that before the time of Snicks, trolley car riding was considered one of the most enjoyable of male pastimes. Most historians agree that Snicks died from a violent attack of lynching.

## 1,000 LOAVES OF BREAD SENT TO SUFFERERS

In response to the Advocate's appeal for further aid for the Zanesville flood sufferers a number of boxes are in preparation and several have been shipped to the relief committee. One of the first to respond to the Advocate's appeal was J. M. Keckley, residing at Hudson avenue and North street. Mr. Keckley got busy immediately and ordered 1,000 loaves of bread from the Huber bakery and these were packed and sent out over the B. & O. early Tuesday morning.

As announced Monday the Advocate has arranged with the B. & O. railway for transportation of supplies to Zanesville without cost. Each box or package must be addressed to A. E. Starr, Relief Committee, Zanesville, O., and each shipper must announce to the B. & O. freight station that the shipment is a part of the Advocate relief fund. Take packages or boxes to the B. & O. freight station properly labeled. Send money or checks to this office.

## TRAINS WILL SOON BE CROSSING THE NEW B. & O. BRIDGE

Zanesville, O., April 8—A week from tomorrow B. & O. trains will be crossing the new temporary bridge across the Muskingum here. This prediction was made by officials Monday afternoon.

Work on the bridge is being pushed rapidly, and through service between New York and Chicago will be resumed April 15, according to the present plans. Within two months an entire new steel bridge will arrive here to replace the temporary structure. The movement of trains will not be interfered with while the new permanent structure is being placed.

## MI-O-NA A SPECIFIC FOR STOMACH ILLS

Many people treat their house, dogs and other things in which they are interested with more thoughtfulness than their stomachs.

We take precautions against fire and other damage to property, but what care or thought do we give our bodies? Almost none! Somehow we have an idea that our mortal frame will stand any abuse heaped upon it, so we go on tormenting it until it becomes defiant and rebellious.

A little fire bell in the system always rings to sound the warning. We have an ache, pain, a bad taste in the mouth, or something out of the ordinary. What is the cause? Just this—been eating too much, too fast, or something that the overloaded and tired digestive organs refuse to handle in the natural way.

Be prepared for these warnings. Mi-o-na Tablets are a specific for stomach ills. Get a box today—always keep them in the house—carry them when traveling—take them at the first warning of stomach distress.

If you have that uncomfortable feeling of fullness, if your stomach is upset, tongue coated, head aches, you feel dizzy at times, and are irritable and depressed, beware—you are warned that the stomach and digestive organs are in rebellion. Do not delay. Take Mi-o-na—at once—immediate relief is certain. Remember—if not benefitted Mi-o-na costs nothing—always sold on money back plan at Evans' Drug Store, and druggists everywhere. 50c a large box.

## HAIR CAME OUT BY HANDFULS

Terrible Itching. Began with Rash. Dandruff Literally Covered Scalp. Entirely Cured by Cuticura Soap and Ointment Within One Month.

2022 Cass St., St. Louis, Mo.—"For five years I suffered with itching of my body and scalp. My trouble began with a rash on my lower limbs, which was very annoying and my scalp was literally covered with dandruff. My hair used to come out by the handfuls and the itching of my body and scalp was terrible. I had used almost all the skin remedies on the market with no results, when I wrote for a little Cuticura Soap and Ointment and it gave me instant relief. Within one month's use of the Cuticura Soap and Ointment I was entirely cured. I cannot describe one cloud of my hair coming out and I have not lost a minute of sleep since using the Cuticura Soap and Ointment, which entirely cured me of itching of my body and scalp in its worst form. I also find the Cuticura Soap a benefit in shaving." (Signed) Charles Judin, Dec. 8, 1911.

For red, rough, chapped and bleeding hands, itching, burning pains, chaps, chafes and painful finger-ends, a one-night Cuticura treatment works wonders. Boak hands, on roasting, in hot water and Cuticura Soap. Dry, scalded with Cuticura Ointment, and wear old, gloves during the night. Cuticura Soap (25c) and Cuticura Ointment (50c) are sold throughout the world. Liberal sample of each mailed free, with 32-p. book on the skin and scalp. Address post-card "Cuticura, Dept. T, Boston." As Tender-skinned men should use Cuticura Soap Shaving Stick, 25c. Sample free.

## MORE HELP SENT TO ZANESVILLE FROM ALLIANCE

Zanesville, O., April 8.—That little town of Alliance is coming to the aid of Zanesville most nobly, for in addition to the assistance which has already been provided, the citizens there are raising another carload of supplies and a fund of \$1,000, according to a message which was received yesterday by President W. P. Sharer of the First National bank, a former resident of that city.

When this last donation is received, Alliance will have sent four carloads of supplies and \$2,000 in money.

## Pittsburg and Newark

(Editorial in Zanesville Signal, April 7, 1913.)

Newark has stood by Zanesville during the flood emergency like a loving brother and has contributed more than its share towards relieving the prevalent distress. Pittsburg, larger and richer, has a heart that is fairly bursting with love and tenderness for our stricken city. Zanesville will never forget them. Zanesville hopes that neither city will ever be visited by a tragedy of this or any other kind, but should they ever need help they will find Zanesville ready with a helping hand. Newark began the work of relief and Pittsburg is finishing it. Other cities have helped to relieve the burden, but none so graciously, so freely or so quickly as Newark and Pittsburg. Cities, like their people, have hearts that are welling with sympathy and help.

### CITIZENS' RELIEF COMMITTEE

Zanesville Times-Recorder.

In the darkest hours of adversity, while still the waters of destruction were lifting their billows higher and higher and lapping at the heart of the city, the citizens' relief committee took shape, and all praise to these heroic men and women. It was before reconstruction could be discussed, it was before any one could form a vague idea of the true desolation, that this committee took up the problems of relief and assistance and began fighting the battles of the city and meeting the questions so suddenly confronting the community.

These citizens worked without sleep, many of them forsaking their own business in ruins to help the private citizens who lost their homes. Their names are on the list of heroes of Zanesville, the list of which will ever remain collectively a monument greater than marble and more solid than granite. All credit due to all of them and all praise. They took up new problems and solved them to their best advantage as they knew how: they gave up comforts and business for the city's welfare, and still they are pursuing their self-delegated duties and worries that the city may arise anew.

### MAN, NOT GOD, RESPONSIBLE

(New York World.)

It is not fair to say that God sent the recent flood. He rules through natural laws, and man, when he violates, or ignores laws, suffers the consequences. The rivers make for themselves channels, but man narrows those channels in the hope of gain—either to get more land or to get nearer to the water when it is low. He constructs levees to hold the river in its narrowed bed and then cuts the levees to put some afterthought into execution, filling up the cut, maybe with sand. He builds picturesque bridges with the support underneath, and every one of them, in flood time, becomes a dam to drive the water out of its bed. To save expense or to utilize more ground facing the thoroughfares, he builds the bridges too low and the flood, when it comes, sweeps them away. The thing to be reckoned with in levee and bridge building is the stream, not when it is low, but when it is at its height. Man's failure in that respect was the cause of the flood.

There is a feeling in diplomatic circles that American ambassadors should be given homes and that they do not make a dignified spectacle riding through the streets of a foreign city on a load of household goods.

Montenegro is ready to fight all Europe. History may repeat itself, but David did not indulge in boasting before he soaked Goliath with that pebble from his sling.

In three years of jail life the militant suffragette leader should have ample time to prove the effectiveness of a hunger strike. Why not let her?

Mr. Taft was greeted by the famous frog chorus on reaching Yale. In the New England climate this is accepted as a sign of spring.

The Chicago News says Reno has done a good deal in promoting peace. In most cases it is merely promoting a truce.

We shall simultaneously recognize the Chinese republic and begin tearing down our Chinese (tariff) wall.

Farmer Astor has raised enough money to buy some additional land.

It is impossible not to sympathize with the British government in its troubles with the militant suffragettes. The women alternately shock the public by their violent outrages and elicit sympathy by their tales of suffering in prison. The government is confronted by the alternatives of releasing them, pump-feeding them or permitting them to starve. The government, however, does not feel itself absolved from responsibility for the health and life of its feminist prisoners by the fact that their starvation is voluntary. The expedient of releasing the prisoners, when their health has been impaired by abstinence from food, and rearresting them to finish their terms, when they have recovered, cannot escape the characterization of being grotesque. But a better plan apparently is undiscoverable. In any event, the women will gain what they most desire—to wit, notoriety.

Spring seems to be trying to excel all past records in the way of breaking things loose, but winter's late leak has been happily stopped.

If they keep on ripping off the forests from the headwaters of the streams, there are many garages that would better be turned into bathhouses.

## Tariff to Have Some Real Cuts; The Present Bill is a Surprise

By ARTHUR W. DUNN.

Washington, April 2.—[Special.]—The new Democratic tariff will not be enacted into law until after a very interesting session. Generally tariff discussions are rather dull, but when they are devoted to bills which are making important changes in tariff rates the talk becomes more interesting. It becomes apparent that the men in charge of tariff making are not going to permit any "make believe" tariff reductions, but that there will be real cuts in customs duties.

When the Democrats undertook to revise the tariff about twenty years ago there was a group of men in the senate who would not permit such reductions on certain articles as the house Democrats and President Cleveland wanted, but there is no such group now. At least it is not strong enough to assert itself and hold up the bill which the house may pass.

### EASE NEURALGIA NOW WITH MUSTEROLE

Massage with MUSTEROLE and notice how the pain lessens, and the delicious comfort that takes its place. Sufferers all over the country write us about this amazing, quick relief.

MUSTEROLE is a clean, white ointment, made with oil of mustard, simply rub it on—no plaster necessary.

Better than a mustard plaster and positively does not blister!

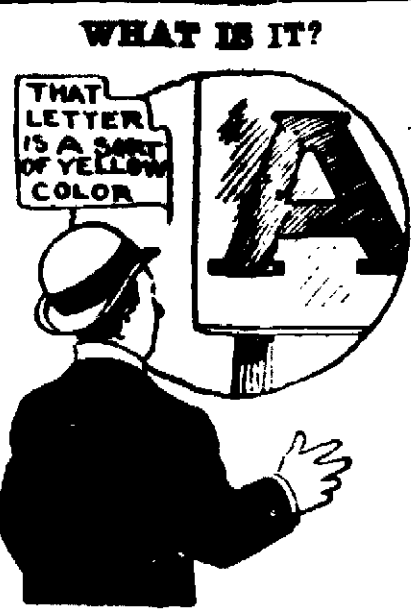

Doctors and nurses frankly recommend MUSTEROLE for Sore Throat, Bronchitis, Croup, Stiff Neck, Asthma, Neuralgia, Congestion Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet—Colds of the Chest (it prevents pneumonia).

At your druggist's in 25c and 50c jars, and a special large hospital size for \$2.50.

Accept no substitute. If your druggist cannot supply you, send 25c or 50c to the Musterole Company, Cleveland, Ohio and we will mail you a jar, postage prepaid.

Must-rol-e is the first and only preparation of any kind that ever helped my weak lungs. Can truthfully say it is far superior to any other preparation of its kind.

Tank Beverly says he has never been able to verify R. L. Cameron's assertion that it is almost just before dawn Tank says always is in bed by that time.

He satisfied with a majority. Opinion never is unanimous.

Eph Wiley, who has been married twenty years, was projecting his views on matrimony. "It is an experience," said Mr. Wiley, "that the first twenty-five years are the hardest."

It is a boost for the medicine if it can be shown that the prescribing physician has taken it with good results.

After a girl permits a man to kiss her, she tells him it was a special favor, and that she must not entertain the idea that she indulges in that sort of thing promiscuously.

Some achieve distinction in one way and some in another. Pitcher Woodburn hit .000 in the American league last year.

Coughs and Consumption  
Coughs and colds, when neglected, always lead to serious trouble of the lungs. The wisest thing to do when you have a cold that troubles you is to get a bottle of Dr. King's New Discovery. You will get relief from the first dose, and finally the cough will disappear. O. H. Brown, of Muscadine, Ala., writes: "My wife was down in bed with an obstinate cough, and I honestly believe had it not been for Dr. King's New Discovery, she would not be living today." Known for forty-three years as the best remedy for coughs and colds. Price 50c and \$1.00. Recommended by F. D. Hall.

## The Human Procession

BY O. TIERNEY

(Church Living in England, Says Rev. Meyer, 68 Today.)

That the churches of all denominations are rapidly losing ground in England was the recent admission of the Rev. Frederick Brotherton, secretary and former president of the National Federation of Free Churches, an organization representative of nearly all the nonconformist denominations. The Rev. Meyer, who will celebrate his sixty-sixth birthday today, is England's most eloquent and scholarly Baptist churchman, and his position enables him to speak with authority on the alleged decadence of Christianity in John Bull's island. He recently joined with the Bishop of London in asking the London News and Leader to desist from the project of taking a religious census of London, and both the Baptist and Anglican leaders admitted to a fear that such a counting of noses might show discouraging figures. The Rev. Meyer has found a constant decrease in church-going in London, while the population of the city is steadily increasing. The spirit of worldliness, he declares, affects all classes. Sports, motoring and week-end parties largely occupy the attention of the wealthy, while the growth of socialism is alienating the poor. The propaganda work readily carried on by a rationalist association, which has circulated millions of copies of scientific and anti-religious works, has also made agnostics and doubters out of thousands of former Christians. The Rev. Meyer entered the ministry in 1870, and is the author of "Blessed Are Ye," "Israel," "Reveries and Realities," and several other widely-read books.

Albert L. King of the Belgians, passes his thirty-eighth milestone today, and his birthday will be the occasion of a holiday throughout his little nation. The successor of the infamous Leopold is a quiet man of domestic tastes, and is more English than French in appearance and manners. Before his elevation to the throne, he spent much of his time traveling incognito in England. The Queen, who was the Duchess Elizabeth of Bavaria, has given her husband two sons and a daughter. Crown Prince Leopold is now in his twelfth year, and is being carefully reared for the exalted position he will one day hold—unless Mr. Vandervelde and his fellow Socialists succeed in their attempts to overthrow the Belgian throne.

Dr. William Henry Welch, one of the leaders in the medical profession in America, was born in Connecticut sixty-three years ago today. No less an authority than Dr. Eliot, president emeritus of Harvard, has referred to Dr. Welch as "the chief force in the development of scientific medicine in America in the last quarter of a century." Yale, Harvard, Pennsylvania, Toronto, Columbia and other universities have given him honorary degrees, and he has also been honored by his colleagues with election to the presidency of the American Medical Association, the Congress of American Physicians and Surgeons, and with "fellowship in the leading medical bodies of England. When the Rockefeller Institute for Medical Research was organized Dr. Welch was made president of the board of trustees, and he has been professor of pathology at Johns Hopkins since the foundation of the famous hospital of that institution in Baltimore. He is the discoverer of numerous germs. Another eminent Johns Hopkins professor who will receive birthday congratulations today is Herbert Spencer Jennings, the naturalist, who was born in Illinois, April 8, 1868. ## Glogged Bowels a Menace to Health

Constipation at Bottom of Most Nervous Illnesses—Avoided—by a Simple Remedy.

Trace the origin of the commoner ills of life and almost invariably you will find that constipation was the cause. It is not to be expected that a mass of fermented food can remain in the system beyond its time without vitiating the blood and affecting the nerves and muscles. It congests the entire body.

The results are colds, fevers, piles, headaches and nervousness with its accompanying indigestion and sleeplessness. There is only one thing to do, and that is to remove the trouble; and what nature seems unable to do, outside aid is necessary. You will find the best of all outside aids a remedy that many thousands are now using for this very purpose, called Dr. Caldwell's Syrup Pepsin. Many hundreds of letters are received by Dr. Caldwell telling of the good results obtained, and among the enthusiastic letters is one from Docia Wood, Little River Academy, North Carolina, who suffered with constipation and indigestion so badly that she could not sleep well at night and everything she ate distressed her. She writes that after her mother had given her Dr. Caldwell's Syrup Pepsin she "can now eat anything."

It has untold advantages over pills, salts and the various coarse cathartics and purgatives, for while these do but temporary good, Syrup Pepsin

of life's milestones today. President Hutchins was born in New Hampshire sixty-six years ago today.

### POPULARITY

We all desire approval, and hope that when we die, our premature removal will cause a public sigh; and while on earth we linger, we hope that dames and gents will at us point the finger of pride and confidence. And so, to gain endorsement, we try all kinds of tricks, some strive for law enforcement, some enter politics; some try to heal diseases by making purple pills, some deal in moral wheezes, and others pay their bills. Some cultivate politeness, or wear a manner great; some have an airy brightness that ought to captivate. Some hand out eloquence, the verbal flight that thrills; some plug for revolution, and others pay their bills. Some dress in gorgeous raiment, with bonnets rich and glad, while tailors shriek for payment, and milliners go mad. In one way or another we always strive to gain the plaudits of our brother while we on earth remain. One method is a winner; with happiness it fills the breast of saint or sinner—the paying up of bills. There is no plan that's better, no method that's more fit, because the chronic debtor can't hope to make a hit.

## The Danger of Thoughtless Buying

The dangers to you of thoughtless buying are many. "A man loses his time that comes early to a bad bargain," runs an old German proverb.

You lose more than your time, for heedless purchasing means wasted money, effort and thought. Poor quality is high at any price.

"How can I avoid it?" you say. "I want the best my money will command, but I cannot know all qualities." Surely you cannot know everything about articles you buy, but you can trust safely to the honesty of merchants of known worth.

Buy the best your money will command in stores where you can rely on those selling the goods, with the help of THE ADVOCATE. Read daily the advertisements of the merchant's advertising in THE ADVOCATE, and profit by what you read.

# NEW HAVEN OFFICIALS INDICTED

Bridgeport, Conn., April 8.—Before Judge Green and a jury in the criminal superior court today four officials of the New Haven railroad were placed on trial charged with negligence and manslaughter. The officials are Henry J. Horn, former vice president, R. B. Pollock, former general superintendent, C. M. Woodward, general superintendent, Lawrence J. Carmalt, maintenance engineer. The indictment secured against these officers grew out of a wreck at Westport, October 3 in which seven persons lost their lives.

# RIVER POINTS STILL NEEDING FINANCIAL AID

Columbus, April 8.—That Lowell, Beverly and other points in the Muskingum valley were hit hard by the flood and will need financial relief was the report today of Major Charles Lynch of the United States army medical corps attached to the Red Cross. At Beverly he said 24 houses were swept away, 20 were destroyed at Lowell and 20 badly damaged. In Marietta 115 houses were swept away and 200 are reported uninhabitable, says the report. Reconstruction in Zanesville is going forward rapidly, Major Lynch said.

# Your Hair Needs Parisian Sage

Use It as a Dressing—Banish Dandruff—Stop Falling Hair and Scalp Itch.

Parisian Sage, the delightful and invigorating hair tonic, is a true hair nourisher. It penetrates into the scalp, gets to the roots of the hair, kills the dandruff germs, and supplies the hair with just the kind of nourishment it needs to make it grow abundantly. Since its introduction into America Parisian Sage has had an immense sale, and here are the reasons: It does not contain poisonous sugar of lead, nitrate of silver or any injurious ingredient. It cures dandruff in two weeks, by killing the dandruff germ. It stops falling hair. It promptly stops itching of the scalp. It makes the hair soft, glossy and luxuriant. It gives life and beauty to the hair. It is not sticky or greasy. It is the daintiest perfumed hair tonic made. It is the best, the most pleasant and invigorating hair dressing. Made only in America by the Giroux Mfg. Co., Buffalo, N. Y. The price is only 50 cents at drug stores and counters where toilet goods are sold. Evans Drug Store guarantees it.

# WOMEN SEW FOR BABIES IN FLOODED CITIES

Seventy-five ladies, members of the Second Presbyterian church, and their friends interested in helping their sisters in the cities of Zanesville and Dayton, gathered at the church parlors Monday for an all day sewing for the benefit of women in these cities who lost clothing during the flood. Hundreds of yards of new goods were made up into tiny garments for infants whose diminutive wardrobes were swept away or ruined during the flood. No account of the number of garments made was kept and it was impossible Tuesday to make a close guess, but the clothing was packed in barrels and there will be four or five of these ready for immediate shipment.

The clothing was equally divided in barrels to be sent to Dayton and Zanesville and supplies were still coming in Tuesday morning. A complete statement of the quantities forwarded will be made later.

# A GOOD LECTURE BY PROF. BIEFELD

Prof. Paul Biefeld, director of the Swasey Observatory, Granville, delivered a very interesting lecture at the First M. E. church Monday evening, his subject being "The Sun, Fixed Stars and Nebulae." The lecture was illustrated, a large number of photographs being shown on the screen by means of the stereopticon. Dr. Biefeld made no attempt to go into technical detail, but told in a plan and interesting way some of the facts concerning the unthinkable distances of the fixed stars, the known facts concerning sun spots, and the enormous energy of the sun, and dwelt at some length on the great nebulous masses in the heavens, giving a large number of photographs, and gave the latest theories concerning the origin of the stars. He gave a very cordial invitation to those present to visit the observatory at Granville, where the planets and other heavenly bodies can be viewed through the large telescope. It is to be hoped that Dr. Biefeld will give other lectures in Newark, for he is master of the subject, and knows how to interest an audience.

# THIRTEEN WAGONS ARE HAULING TRASH FOR "CLEAN UP DAY"

Thirteen wagons under the direction of Service Director McCarthy are engaged today in hauling rubbish placed in the streets by Newark citizens in compliance with the "Clean-up Day" movement proclaimed several weeks ago by Mayor Swartz. According to a statement made at the office of the service department, the quantity of rubbish to be moved is much smaller than in any previous year. Despite this fact, the wagons will probably be engaged all of Tuesday and Wednesday in the work. The hauling is being done as systematically as possible with a view of keeping a record of the number of loads handled this year. Mr. McCarthy is assisted in directing the work by other employees of the service and street departments.

# DEAD BODIES ARE LOCATED BY A FORTUNE TELLER

Mt. Vernon, April 8.—Following the directions of "old Gorum," a fortune teller of the Washington valley, relatives and friends of Harry Workman, who with his wife and child was drowned two weeks ago when their home was swept away, searched the debris of a mill race near the town and found the bodies of Workman and his wife. It was necessary to construct a dam to stop the flow of water in the stream before the search could be concluded. The fortune teller told the relatives that the child's body would be found further down the stream.

# COURT NEWS

**Juvenile Court After Dance Halls.** On affidavits filed before Judge Robbins Hunter in Juvenile Court, warrants were issued Tuesday morning for the proprietors of a dance hall in West Newark, charging them with contributing to the delinquency of two girls under 17 years of age. The affidavit charges that the men, by maintaining and operating a public dance hall, which place is declared by the affiant to be immoral, allowed the two girls named in the affidavits to loiter about the place.

A quiet investigation has been conducted by the juvenile officers regarding dance halls over the city, and an effort will be made to break up the practice of young girls who have been frequenting the places. "The law is weak, regarding dance halls," said Probation Officer Sheridan Tuesday. "City dance halls must secure a permit from the mayor before they are permitted to operate, but as soon as the halls are beyond the city limits, they are also beyond the mayor's jurisdiction. Efforts have been made to have the dance halls outside of cities placed under the jurisdiction of the juvenile courts and this will no doubt follow sooner or later."

The proprietors of the West End dancing pavilion appeared in Probate court Tuesday morning and pleaded guilty to the charges contained in the affidavits. Both men listened to some pointed remarks from the judge, who assessed a fine of \$5.00 and costs in each case and pronounced a jail sentence of 20 days. The execution of the jail sentence was suspended upon their promise to see that girls under 17 years were not allowed on the dance floor.

**Miss Dundley Here.** Miss Dundley of the Girls Industrial school at Delaware, was in the city Tuesday morning in charge of one of the girls from the school, who was called to testify before the grand jury. Miss Dundley and her charge returned to Columbus via the Ohio Electric at 10:42 o'clock.

**A Heavy Burden.** In a petition filed by Carl Norpell and Andrew S. Mitchell for Walter C. Betz, the plaintiff shows that in four years he has paid the sum of \$2071.93 to his wife and for the support of their child, as alimony decreed by the court.

In his petition, Betz states that Mrs. Betz got a decree of divorce on December 28, 1908 and that he was ordered to pay \$20 per month alimony. He alleges that in the period between the granting of the decree and the filing of this petition he has paid to the defendant in the form of house rent \$848, cash \$804, for the child \$212.75, and for physicians' services, etc. for the child \$17.18.

He states that the defendant secured a judgment in the probate court against him for \$920, an alleged balance due her on the alimony decree. He claims that the sheriff, in pursuance to an order of the court, is about to sell certain real estate to satisfy this judgment. He asks a temporary restraining order and finally a permanent injunction against the action and such other relief as the court believes to be due him.

**Suit in Partition.** Harvey R. Blizard vs. Orner Blizard et al. a suit in partition is a new case filed in Common Pleas court Tuesday morning by Mr. Blizard's attorney, J. F. Lincafelter. The plaintiff seeks to have sold property lying northeast of the city owned by Sarah E. Blizard, who died January 22, 1913 intestate. Chief of Police Blizard is one of the defendants.

**Amended Petition.** Charles C. McGruder, by his attorney A. A. Stadel, has filed an amended petition in the case of W. A. Veach vs. Frank G. Warden, in which he asks for judgment of \$10,000 with interest from January 1, 1907. The petitioner, as administrator of the Veach estate, alleges that the defendant failed to keep a contract by which Mr. Veach was to have been paid the sum of \$10,000 for his influence in helping about the consolidation of the Newark Electric Light & Power Co. and the Citizens' Electric Light & Power company. He alleges that though Mr. Veach carried out his part of the contract, Mr. Warden disposed of his stock and failed to compensate Mr. Veach as he agreed to.

**Files Answer.** In the divorce case of Martha Harris vs. Ralph Harris and the Buckeye Rolling Mill company, the defendant Harris has filed an answer denying every allegation except that they were married and lived together until a few weeks ago. He asks a dismissal of the petition and a dissolution of the injunction, restraining the rolling mill from paying him his wages.

Elyria, O., April 8.—Fire supposedly caused by spontaneous combustion today destroyed the Lake Shore railroad loading and coal dock in East Elyria. The docks were valued at \$50,000 and 600 tons of coal were burned.

# CHURCH WOMEN LIBERAL WITH HELPING HAND

The women of the Trinity Episcopal church on Monday responded to the appeal for aid for Zanesville flood refugees and packed eight barrels and one large box which was sent to the stricken city. The supplies sent were clothing and bedding, and the garments were all in excellent condition, many coming from the personal wardrobes of the donors. Rev. L. P. Franklin, pastor of the church, appealed to his people for liberality.

# PRESIDENT

(Continued from Page One.) ago passed beyond the modest notion of "protecting" the industries of the country and moved boldly forward to the idea that they were entitled to the direct patronage of the government. For a long time—a time so long that the men now active in public policy hardly remember the conditions that preceded it—we have sought in our tariff schedules to give each group of manufacturers or producers what they themselves thought that they needed in order to maintain a practically exclusive market as against the rest of the world. Consciously or unconsciously we have built up a set of privileges and exemptions from competition behind which it was easy by any, even the crudest, forms of combination to organize monopoly, until at last nothing is normal, nothing is obliged to stand the tests of efficiency and economy in our world of big business, but everything thrives by concerted arrangement. Only new principles of action will save us from a final hard crystallization of monopoly and a complete loss of the influences that quick enterprise and keep independent energy alive.

**Must Abolish Privilege.** It is plain what these principles must be. We must abolish everything that bears even the semblance of privilege or of any kind of artificial advantage and put our business men and pro-

ducers under the stimulation of a constant necessity to be efficient, economical and enterprising, masters of competitive supremacy, better workers and merchants than any in the world. Aside from the duties laid upon articles which we do not and probably cannot produce, therefore, and the duties laid upon luxuries and merely for the sake of the revenues they yield, the object of the tariff duties henceforth laid must be effective competition, the whetting of American wits by contest with the wits of the rest of the world.

It would be unwise to move toward this end headlong, with reckless haste or with strokes that cut at the very roots of what has grown up among us by long process and at our own invitation. It does not alter a thing to upset it and break it and deprive it of a chance to change. It destroys it. We must make changes in our fiscal laws, in our fiscal system, whose object is development, a more free and wholesome development, not revolution or upset or confusion. We must build up trade, especially foreign trade. We need the outlet and the enlarged field of energy more than we ever did before. We must build up industry as well and must adopt freedom in the place of artificial stimulation only so far as it will build, not pull down. In dealing with the tariff the method by which this may be done will be a matter of judgment, exercised item by item. To some not accustomed to the excitement and responsibilities of greater freedom our methods may in some respects and at some points seem heroic, but remedies may be heroic and yet be remedies. It is our business to make sure that they are genuine remedies. Our object is clear. If our motive is above just challenge and only an occasional error of judgment is chargeable against us we shall be fortunate.

# Thorough, but Moderate.

We are called upon to render the country a great service in more matters than one. Our responsibility should be met, and our methods should be thorough, as thorough as moderate and well considered, based upon the facts as they are, and not worked out as if we were beginners. We are to deal with the facts of our own day, with the facts of no other, and to make laws which square with those facts. It is best—indeed, it is necessary—to begin with the tariff. I will urge nothing upon you now at the opening of your session which can obscure that first object or divert our energies from that clearly defined duty. At a later time I may take the liberty of calling your attention to reforms which should press close upon the heels of the tariff changes, if not accompany them, of which the chief is the reform of our banking and currency laws, but just now I refrain. For the present I put these matters on one side and think only of this one thing—of the changes in our fiscal system which may best serve to open once more the free channels of prosperity to a great people whom we would serve to the utmost and throughout both rank and file.

WOODROW WILSON.

The White House, April 8, 1913.

# INTEREST IN THE SESSION.

# For the First Time in Many Years Democrats Control.

Elements in the extra session of congress are unusual. President Wilson has called the great body together at a time when his party has absolute control of every branch of the government relating to legislation.

This has not been the case before in twenty years. During that period of long ago when the Democrats were in power President Cleveland called an extra session, but the conditions were vastly different from now.

The extra session under President Wilson is remarkable because the lawmakers to a large extent are men of comparatively recent rise to prominence. Because of the fact that the Democratic party is providing a change from Republican rule for the first time in sixteen years great interest is centered upon the doings of congress.

Virtually a new generation of legislators has sprung up. With but a very few exceptions there are no men who figured in congressional doings of twenty years ago who are sharing the responsibilities of the body now.

Of only one thing has the public been absolutely certain, and that is that the tariff would be first and foremost among the subjects for work by the legislators, and that revision downward would be the purpose. The legislators themselves have not known just how the revision is to be managed, and it has been well understood that they would not all be pleased over all the details of the ultimate changes. The subject has been thrashed over so often and earnestly that its intricacies have become feared.

The ways and means committee, with its head the task of drafting the tentative form of the new tariff measure, has been unable to announce completion of its work in advance of the extra session, but the probability is that the measure will be taken up, schedule by schedule.

The public has been led to expect that after the tariff is disposed of congress will consider currency, the income tax, Philippine independence and the Panama tolls questions.

Much publicity has been given to the new coal method in operation. The tax will probably apply only to imports of over \$50,000 annually. A certain number of congress hold that this sort of way would be confined to but a comparatively small proportion of the public and that the revenue would not be sufficient. They argue that an inheritance tax should be added to insure the needed revenue.

## NO TYPHOID FEVER AT BUCKEYE LAKE

A Columbus newspaper in referring to the proposed sewage disposal plant at Buckeye Lake says:

Last summer there were some cases of typhoid fever there and some of it reached Columbus. For several weeks the Columbus drainage plant was suspected of not doing its work properly, but the cases of typhoid were finally traced to Buckeye Lake.

As a matter of fact, according to Dr. O. M. Kramer of Akron, there was not a single case of typhoid fever at Buckeye Lake last summer. The people of that community want to see a sewage disposal plant built at the lake, but it is not because of a typhoid epidemic for there were no typhoid cases there.

Senator Flood of the senate finance committee, now considering the general appropriation bill, says that it is perfectly certain that the committee will approve the item, giving \$75,000 to the Lake Erie Improvement Association, as provided by these having interest there. This appropriation is practically giving back to the lake its revenue from rents, houses, etc.

**Man Who Beheaded Charles I.**

Perhaps the nearest British analogue for the puzzle about the "Man With the Iron Mask" is the identity of the masked executioner who beheaded Charles I. He was Richard Brandon, a commoner, who was also the common hangman. Brandon admitted that "they made him do it for £20" which by a grim jest was paid in half crowns.

## GRANVILLE PEOPLE IN DAYTON FLOOD

The residence of William F. Chamberlin at Dayton was just on the edge of the great flood. The water extended west from the river where the Chamberlins lived about five miles, the water being from 10 to 15 feet deep.

Mr. Chamberlin says: The small loss of life is a miracle. The monetary loss is immense. My personal loss is confined to a valuable mare and vehicle.

Charles H. Bosh, another former Granville student, lost heavily and so did P. B. Thresher. E. M. Thresher's loss is very heavy. Arthur Stevens was out of the flood zone. Frank Withers, formerly of Granville, now lives in Georgia. The fine new church organ over which Mr. Chamberlin presided is a wreck. The Chamberlin home at Dayton is full of flood refugees.

## NEWARK NURSES ARE HELPING ZANESVILLE

"Zanesville" Signal.

Five Newark nurses from Newark are in Zanesville assisting in the relief work. They are trained and their services are all of them are professional nurses, having graduated from different hospitals in the state. They were immediately assigned to places in different sections of Zanesville and will remain here for several days. The women are Miss Grace Phelps, stationed at the Modern Woodmen hall; Misses Frances Ruth Lees and Bertha Martin, stationed at the Elkhart street Baptist church; Miss Lella Haver, stationed at the Trinity M. E. church; and Miss Helen Jackson, stationed at the court house, assist Health Officer G. W. McDonald.

Among the 564 residences destroyed or wrecked by the flood in Tiffin were thirty-one homes awaiting visitors of the work. With the houses went all furnishings, clothing, and in most cases all the worldly goods of the former inmates. The situation was most deplorable. But Tiffin women were equal to the occasion. Accommodations have been arranged in undisturbed houses and hospitals and about every woman in the city is working early and late, making busy clothes.

When a man goes over a woman, that man has had an inconsiderable disaster to travel.

# MILL TO MAN TAILORING

Means new woollens fresh from the foremost mills of America—a very important item, as it insures much longer wear, shape retaining qualities and that lasting brightness not possessed in woollens that must pass through several hands before reaching the consumer. We show a very large line of the season's newest creations. You will like them, for they are the finest. Many were woven for our especial use. You will find it just as hard to duplicate them as to duplicate our values.
